

Industry Day 31 May - 1 June 2001

JEFX 2002 Security Certification and Accreditation

**Security Process Documentation
Briefing**

JEFX 02 Initiative View on Security

- **From the Commerce Business Daily (CBD) Announcement:**
 - **“Participation requires the systems architecture be stabilized for secret and below interoperability (SABI) review Well before Execution.”**
 - **“Each initiative submitted must be able to withstand the scrutiny of the SABI process and achieve both equipment and network accreditation.”**
- **The CBD contains an additional attachment detailing security certification and accreditation guidance**

Policy on Accreditation

- **Department of Defense and Air Force policy requires information systems follow a process to achieve security certification and accreditation**
- **Process described in DoD 8510.1-M**
 - **Department of Defense Information Technology Security Certification and Accreditation Process (DITSCAP)**
 - **This document can be obtained at the web site:**
<http://web7.whs.osd.mil/dodiss/publications/pub2.htm>

DITSCAP

- **Certification and Accreditation process -- “provides the **proper balance** between **operational support capability, acceptable risk, and life cycle costs ...**”**
- **A multi-phase process**
 - **Phase 1 - Definition**
 - **Phase 2 - Verification**
 - **Phase 3 - Validation**
- **Guidance provided as attachment to CBD outlines specific details for tailoring an initiative's security accreditation efforts**

Security Domain Interconnection

- **The interconnection of different security domains requires adherence to the “SABI” Process**
 - **SABI is Secret and Below Interoperability**
 - **SABI addresses the interfacing of Secret and below systems in different security domains**
 - **Documentation explaining the SABI process can be found at <http://www.sabi.org>**

DITSCAP Initiative Responsibilities

- **Each initiative will:**
 - **Submit a System Security Authorization Agreement (SSAA) IAW the DITSCAP Manual**
 - AND**
 - **Be prepared to support the process with timely submission of security accreditation documentation**
- **Notional date for submittal of SSAA: November 2001**

Note: This process may require multiple iterations in response to request for clarification or more information from security accreditation participants.

Network Connection

- **The government will lead the network connection process to include DISN Security Accreditation Working Group (DSAWG) briefings and approval**
